

ENGG 683 Winter 2022
Assignment 1
Deadline: January 21, 2022 at 11:59pm

PART I

There are many different perspectives on what qualities make up a good team. Below are some statements about teams. Choose **TWO** of the following statements and write a reflection that clearly indicates to what extent you think that statement DOES or DOES NOT describe a good team.

1. The team avoids high conflict situations
2. The team members are competitive
3. Everyone on the team sticks closely to the goal
4. The team has spontaneous development of subgroups
5. The team is constantly collaborating to problem solve
6. The team is developed from diverse groups
7. The team constantly measures team performance
8. Issues are expressed freely with the team

Your reflection should include (1) a clear indication of whether you think the statements does or does not describe a good team, (2) at least two reasons why you think that, and (3) at least one example to support your position.

PART II

You are required to complete a leadership assessment and provide a reflection once completed. The purpose of this assessment is to help you think about what skills you already have to be an effective leader and identify the areas in which you still have room for development.

The assessment will be conducted online, the link can be found on D2L. For each statement, click the button in the column that best describes you. Answer questions based on where you are right now (rather than where you think you should be). When you are finished, review your score interpretation and write a reflection that includes (1) at least one area you can develop, and (2) how you plan to do so.

SUBMISSION

Complete the leadership assessment online and submit **ONE page MAX** for both parts in the Dropbox for Assignment 1 on D2L. No Late submissions will be accepted.
